Mountain Star in Charge of Person while Water Star in charge of Wealth

My analysis

First Observation:

The nature of my friend's business is fish retail business. However, since he just started the business less than a year. No much can be said in this store. The only observation was related

to previous business prior to his. In such a setting the previous owner will not be able to last for more than three years. In such setting, the Water and Mountain stars were both found mismatched.

The truth: After the calling the landlord, the landlord confirmed that prior to his contract the previous business owner lasted only two and a half years.

2nd Observation:

The west sector with combination of 279 might result in fire accidents or short circuit related problems.

The truth: Just one month ago, due to a cigarette butt the whole dustbin was burnt and luckily next to it was few packages of salt that stop the fire from burning further the shop.

3rd Observation:

The east sector of 735 flying stars orientation is prone arguments and constant change in partner.

The truth: The business just started few months ago and already one of the partners wanted to get out from the business.

4th Observation:

The central location with 957 is prone to sickness.

The truth: Since the inception of this business, all related personnel were in constant illness related to cold, sinuses and headache.
