

**Feng Shui is the Path of Life!**

The following metaphor may help illustrate the point: A Mercedes Benz driver takes a ride on a bumpy road and a Nissan Sunny driver drives along a smooth highway. Which driver would find the journey most enjoyable? You might surmise that the Nissan driver would enjoy the smooth road more. Yet, the answer could be both, because the discomfort of the bumpy road could be offset by the comfort provided by the luxurious Mercedes. Nonetheless, at the end of the journey, the Mercedes will remain as a Mercedes and the Nissan will still be a Nissan.

One sure thing is that correctly applying **Feng Shui principles to your life makes your path easier or smoother.** We will get to our destination much sooner and with less distraction or deviance from our life path. Moreover, the Yin and Yang theories remind us that change is constant and it is thus worthwhile to keep that in mind as we pursue our daily life activities.
