信而不明就是迷信-The Real Master is None Other Than You!

Master Jiang Dai Hong on (The 5 Songs of Heavenly Feng Shui)-Yin and Yang

Feng Shui-part 1

1.統論歌(Overall)

一元活氣含三象,天清地濁分升降,
山川土石象中氣,日月星辰氣中象,
中有人爲萬物靈,卓立三才不相讓.

The power of universe is great and the formation of such has created enormous unseen energies, such unseen energies has transformed the interaction of heaven, earth and humankind and resulted a cause and effect scenario (yin and yang theory). Heaven comprises of Sun, moon and stars (galaxy), while earth has mountain, stone, river and ocean as its components. While the intellectual of human kind has let to 'sky is limit' potential!

元陽本是天天中來,形從天地產根菱,
天元降在地元中,猶如男女媾成胎,
十月嬰孩非父職,三年乳哺母之懷,
人生本天而親地,敢不端詳妙化裁.

The knowledge of geography or topography cannot be neglected. The solar energies have an impact on the formation of earth structure and as results: the big versus small landscape, high versus tall hills, even versus unevenness of surfaces. The absorbent of solar energies by the landforms and the interaction within has created various state of minerals and until a contraction state is formed, the access of such energies will emerge and run through the rough surface of earth, That is a significant formation of earth 'pressure point' or dragon point, a point of where the energies emerge and divert

through the surface of hills or mountains. This dragon point will absorb the solar, moon and others star's dissemination, transmission and reflection of energies. This phenomenon is like a couple conceived and gave birth to a newborn baby and the greater contribution is attributed to mother. That is why it is termed as motherland!

宅相由來不可忘,自毫五遷昔有商,所以聖人重此理,都鎬卜洛意何長,人死骨魄歸於土,還從地理吸天光,吉成龍鳳家靈奇,凶作虫蟻諸惡殃,後世名賢朱蔡輩,型儀書冊亦煌煌。

Master Jiang's emphasis on Yin Feng Shui (ancestor graveyard) is not less than Yang Feng Shui (current residential). The placement of the death graveyard will generally influence the living beings. Such placement of graveyard if situated at the right dragon point will protect the living being from unkind energies to harness a good one and promote a better quality of lifestyles. Like wise if placed in the wrong area will result a catastrophe for the living beings.

奈何迂儒識見偏,諱言求福云達天,世上惜財薄苑著,傳會其說以文慳,直使子孫貧火絕,不發莫大豈為賢,況復翻棺並覆悞,父母魂魄更堪憐。

Feng Shui is not superstitious, only those who passed on such knowledge haphazard or mediocre master have created confusion and thus distrust towards Feng Shui. Such practice has resulted wrong placement of graveyard that generate unkind energies and catastrophe for the living beings. One of the filial attributes is to provide a better graveyard for your deceased parents. A better graveyard will prevent insects, worms to breed on corpse and coffin.

時人不重父母墳,祇看花門不看根,僧道乳母相應,繼子外孫若嫡親。

Unwillingness to trust and neglect the Feng Shui aspect by modern society and for not being termed as 'superstitious' has led to unwarranted outcomes. The implication and repercussion has resulted broken family members, low or poor living classes and to certain extent monks and nuns. You cannot afford a bad Yin Feng Shui.

墓宅吉凶較量看,新墓舊墳也相參,墓宅兩興宜鼎盛,墓宅兩廢絕人煙,宅凶墓吉兒孫慶,墓凶宅吉眼前歡,祖父新遷沾殺氣,高曾偏應他房利,寒林忽發一枝春,若非新宅必新墳,吉少凶受福來短,吉多凶少禍來輕,更看屍骸寒興暖,歲久骨枯取效緩,惡山惡水向曾埋,銷盡陰霾氣方轉,初喪新骨天靈完,葬乘生氣朝榮顯,更遇嫩山於嫩水,一紀之內錦衣還,兼將宅氣來相輔,卑田院裡出官班。

The balance of good Yin and Yang Feng Shui is critical to achieve a harmonious state for the living beings. Such state will result in better improvement of quality of life as well as health. Such imbalances will create otherwise results. The timing of bury is the crucial issue and the most auspicious date is required to harness the best possible kind energies. This will ensure the deceased will not absorb the unkind and bad energies that might affect the next generation's well-beings.

莫說生來命數奇,地元一得天星移,此是星人造命訣,二十八宿掌中齊,休認窮通有骨相,騰蛇化作青龍樣,此是神人化骨方,死骨不灰生骨壯。

Master Jiang believed that the energies created by heaven and earth is enormous and have a greater impact on living beings. The interaction of 28 stars (heaven) in the sky resulted unseen forces that led to different impact of living beings. The rotation angles of the stars are enough to affect the magnetic field on earth. In the northern windy states, wood and forests are hard to grow. Southern states with solar energies will see green forest and woods. This is a daily typical example that we can find. Do understand the nature of universe and you will see the logic and rational of it. Based on such kind energies created that are funnel through to next generation by proper selection of graveyard.

觀君大地莫誤求,大形大局少根由,縱有千山并萬水,卻與穴氣不相投,一枝一炮山龍真,一鈎一曲水龍神,豈知吉地方方有,祇在人心眼力尋,貪鄙休云結局小,箇中生意滿乾坤。

The most beautiful and big graveyard does not guarantee better lifestyles of living beings. A properly and yet small selected graveyard will be better off. A good dragon point is where a skilled practitioner to identify for the graveyard selection site. A well-connected site with heaven and earth magnetic field is like an electric socket where once connected will supply unlimited electricity to you.

LIFE READING

History of the Four Pillars of Life (Ba Zi)

The Four Pillars of Life technique (commonly known as Ba Zi) has evolved from practices dating back 4,000 years. Combining philosophical and scientific approaches, Four Pillars of Life is a code that represents the year, month, day and time of birth.

The earliest observations of '5 stars' and '7 major and 4 minor stars', which are two ancient Chinese traditional methods that study and analyze the cosmos and universe, evolved to become what we now know as Xu Zhe Ping's Four Pillars of Life.

While studying the interactions between Heaven (Tian), Human (Ren), and Earth (Di), a pattern began to emerge. This pattern represents the cyclical influence of the energies in the universe blueprinted on us during the time of our birth. This information is encrypted in the form of Eight Characters (Ba Zi). The study and practice of Ba Zi allow us to decrypt this code and reveal our opportunities indicated by it.

In order to perform a Four Pillars reading, the four specific times (year, month, day and time) are arranged in four columns or pillars. Each pillar of time is denoted by two words; the first is comprised of the 'Ten Heavenly Stems', which are the Yin and Yang parts of the five elements: Earth, Fire, Metal, Water and Wood; the second word is composed of the 'Twelve Earthly Branches', more commonly known as the twelve animals of the Chinese Zodiac.

The Four Pillars of Life technique represents the static chart of our life destiny. The eight characters are called 'Ming Kong' or life chart. Our life path or destiny is calculated in what we call the dynamic pillars, which represent ten-year periods of our life. These pillars are known as 'journey of life' or 'life path'. If we have a good life chart, we need to be supported by the right opportunities in order for its true potential to be realized. Conversely, a mediocre life chart can be helped by good sets of 'luck pillars'.

Chinese Names Reading

No one will object to me if I say that the most important thing that closeness to a person is his or her names. A person name being addressed and called upon several times a day and that generate an affect a person thinking paradigm and thus his or her behavior. A fresh and good sounding name will definitely uplift one energy level; psychology might play a part too.

There are Seven Criteria to consider for forming a Chinese name.

- 1. Meaning
 - i. Essentially is the backbone of a name, the great 5,000 years of Chinese Cultures place a great deal of emphasis on meaning of naming a person.
- 2. Yin and Yang
 - i. The odd number represents Yang, even number represents Yin, and this is derived from I-Ching, The Book of Changes.
- 3. Five Elements
 - i. The numbers of strokes ascribed according to Chinese numbers Five elements i.e. 1 and 2 are Wood, 3 and 4 are fire, 5 and 6 are Earth, 7 and 8 belong to Metal and lastly 9 and 0 belong to Water
- 4. Number of Strokes
 - i. The 81 ling-tong strokes for calculating the good and bad effects for names derived from I-Ching, The book of Changes. Accordingly, the 8

trigram resulted in (8X8) 63 hexagrams, while number 9 is the ultimate number, with (9X9) resulted in 81 strokes.

5. Four Life Destiny-The chemical reactions resulted from the Surname (last name), second and the third name of a Chinese name.
6. Five Configurations-As a result from (5), a combination of different stages of life is created.
7. Heaven and Earth Formula
This formula is based on the month and date of a person. For example if you are born on October 9: $9+10=19$

$$=19/5$$

$$=3.8$$

$$=4 \text{ (the closes)}$$

"I've missed more than 9000 shots in my career. I've lost almost 300 games. 26 times, I've been trusted to take the game winning shot and missed. I've failed over and over and over again in my life. And that is why I succeed."

More on Yin and Yang-back to basic

Yin and Yang is the basis for everything and it is the foundation of Chinese metaphysic. The Eternal (Wu Chi) transformed to Yin and Yang (Tai Chi) and from

Yin and Yang evolved to 5 elements and so on.

太極無形 先天地生 氣神合並 混一鴻濛 一氣既動 動而履陽 其卦應乾 動極復
靜 靜而生陰 其卦應坤 靜極復動 一動一的一靜 互為其根。
陰陽之理 孤陰不生 獨陽不長 清者為陽 濁者為陰 呼者為陽 吸者為陰 升者為
陽 降者為陰 上者為陽 下者為陰 左者為陽 右者為陰 肝木為陽 肺金為陰 人
身有形 不離陰陽 即陰留陽 復命歸根 見性明心。
