## Face/Palm Reading

### Eyebrows (Age 31 to 34)

The eyebrow governs a person's life from age 31 to 34. In addition, the eyebrow also represents siblings; the left represents brother(s) while the right represents sister(s). The eyebrow without any 'break' signifies cohesiveness among siblings. A fine eyebrow represents a person who is attentive to details while a thick eyebrow represents a careless person. Eyebrows also represent a person's observational ability and emotions.

Eyebrows are the focal point of emotions and intelligence. People with eyebrows longer than the eyes are passionate and artistic in nature. Those with thick and messy eyebrows are insensitive and lacking artistic values.

A good eyebrow is fine with a shining hair texture, un-dispersed at both ends, long and above the eye socket bone, while the reverse is said to represent bad eyebrows. Persons with long eyebrows are hesitant and slow in decision-making processes while those with shorter eyebrows are normally decisive and quick in taking action.

#### Thick eyebrows

Persons with thick eyebrows only pay attention to important issues and are careless about details. Males are prone to have thick eyebrows as women with such eyebrows will not pay attention to the little details in life or do not like to do house chores. Males with too thick eyebrows due to their heightened adrenaline levels are sexually active but submissive to their wives.

#### Eyebrows near eye (suppressing eyes)

Persons with such eyebrows are said to have thin family relationships and have a difficult time owning properties. Such persons are practical in daily approaches but are narrow-minded.

#### Dispersed eyebrow (sparse)

This refers to hair growing in different directions. Unable to manage their life in general, these people are often unable to sustain wealth. Such persons are usually indecisive when it comes to decision-making.

## Long eyebrows

Long eyebrows are considered good because such people might get guidance from angels when in trouble.

## Short eyebrows

This is the reverse of the above, whereby such persons are unable to get help or guidance from angels when in trouble. Eyebrows that are shorter than the length of the eyes are constantly experiencing financial instability.

## Thin or fine eyebrows

Since eyebrows also represent siblings, persons with such thin eyebrows will have fewer siblings and thin relationship with them, if any at all. Nevertheless, such persons are able to pay attention to details.
