

Face/Palm Reading (iii)

By Master Kerby Kuek

Eyes are critical in Face reading. Eyes act as governor for our face.

EYES IN SPECIFIC DETAILS

Eye accessing cues include movements of the eyes in certain directions, which indicate visual, auditory or kinesthetic thinking.

ACCESSING CUES (Age 35 to 40)

Eyes that point downwards

Persons with such eyes are said to have relationship problems before age 40. Poor relationship management and indecisiveness on making critical decisions are their major pitfall. Due to indulgence in relationships, such persons will neglect their career paths. Statistics show that such persons will tend to have more daughters than sons.

Eyes that point upwards

This is the reverse of the above. However, at times such persons end up manipulating relationships rather than managing them.

Career-oriented and autocratic when holding power, statistics show that such persons will tend to have more sons than daughters.

Double-folded eyelids

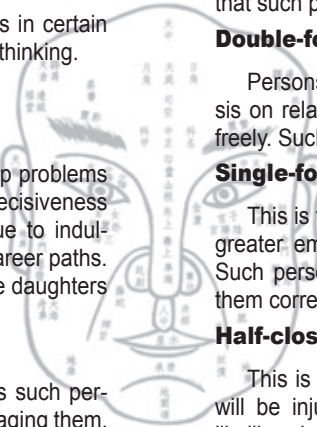

Persons with double-folded eyelids tend to place great emphasis on relationships and express their feelings and emotions more freely. Such persons will tend to be more family-oriented.

Single-folded eyelids

This is the reverse of the above. Such persons will tend to place greater emphasis on their career as opposed to on relationship. Such persons like to hide their true feelings and seldom express them correctly.

Half-closed eyes

This is more science than anything else is, since such persons will be injured easily, especially related to their feet due to the likelihood of being tripped or tumbling.

One minute Feng Shui - part 4

By Master Kerby Kuek

7th minute - Is there a road near your house (T-junction or crossroad)?

Roads, as I mentioned earlier, need to be passionate, or not in straight line. A 'T' junction is three straight roads combined into one and is believed to permeate 'unkind' energy. This 'unkind' energy will not only affect the health of nearby inhabitants, but they will also be unable to sustain wealth due to the 'insensitive' impact of the 'T' effect.

I will recommend that you take one minute to find out the direction of your house and see if your house is located at a T-junction. If so, apply the 5-elements theory to solve the issue.

8th minute - Any object above the roof?

Objects above a house's roof are said to suppress the Yang energy of the house and therefore should be eliminated. Objects such as trunks, twigs, branches, logs of trees, clutter and debris are said to bring excessive Yin energies to the house. Clean and clear things above the roof of your house to receive 'kind' energies next time you do your yard clean up.

Take a minute to identify and remove anything above your roof, but make sure safety comes first!

9th minute - Any big or dying trees nearby?

Too big of a tree will create excessive Yang energies because anything that is excessive in any dimension is considered to attract 'unkind' energies that disrupt otherwise 'kind' energies. What should

you do with big trees? You need to handle them with care so as not to offend your local authorities. Trimming it is the best solution. What if the tree is dying? Dying trees are believed to radiate 'unkind' energies that might slow down a person's life progress. If you have not already purchased such a house, I would advise you not to as it would affect a person's well-being. In case you have already resided there for some time, you should place a cup of water facing such a tree if you cannot get rid of it. The water element is said to drain off the unkind energies radiated by dying trees.

10th minute - Lamp post facing your main door?

Nearby lamp posts or sharp objects directly facing your house are believed to bring in 'unkind energies' that might affect a person's health, thereby causing headaches, migraines and minor foot and hand related accidents. Solving such 'headaches' requires the basic 5-elements theory solutions.

11th minute - Any big or dying trees nearby?

Old, deserted, too tall or too small buildings nearby will affect the inhabitants of the house. Old and deserted buildings will bring excessive yin energies to the house. Sharp-edged neighboring houses that directly face your door are also believed to bring in unkind energies.

Refer to Appendix 1 for solutions.
