- It is advised that you get a comprehensive reading for more accuracy!

**Auspicious Locations with Red Colour (see above)**

1. The South sector is conducive for achieving academic excellence with **4-Green star**. Therefore, if you want to improve your academic qualities, this sector should be used for your bedroom or study room. **To further strengthen such energy, you should place four lucky bamboo trees, four small plants or four wood calligraphy pens in this sector.**
2. The Central sector with a **9-Purple star** is conducive for events related to 'happiness' and 'celebration'. Marriage, pregnancy, promotion and career advancement are in this category. This will be ideal if such a star falls in your bedroom or living room. **To strengthen this energy, you can place 4 plants, nine red roses or red colour carpet this Central sector. How? Well go figure it out!!**
3. The Northwest sector with **1-White star** is related to harnessing relationships that can be of help in increasing wealth if you are not a salaried staff person. In other words, if you are doing business, or work as an agent or broker, you need to improve your relationships and thus your opportunities for pursuing leads and closing deals. **Place either a cup of clean water or a music box in this sector.**
4. **The 6-White star**, located in the Southwest sector, is ideal for skilled workers or technicians who want job stability. **Place eight small white stones** in this sector to strengthen such energies. Nevertheless, such energies will be diverted since frequent travel and constant changes in jobs requirement are required.

**Inauspicious Locations with Black Colour (see table above)**

1. The West sector with a **2-Black star** is prone to illness. Unless you do something to counter such bad energies, you will constantly be using your sick leave for sure! **In this sector, you can place a metal-related item such as a music box or a metal statue.** Do not panic though. This 2-Black star is only related to minor illnesses such as sinusitis, coughs and headaches! Since 2-Black star also represents women, especially married women and be cautions about health issues that might lead you to long term problems that cannot be solved immediately. Stomach indigestive related problems as well as food poisoning are rampant.
2. The East sector with a **7-Red star** is often associated with robbery and small theft events. **Place a cup of clean water to drain such bad energies at this sector in your home.** Eastern of Asia, USA, Europe and Africa will probably experience major car accidents or large earthquakes. **Since san-sak bad star is located here, this area should not be disturbed with renovations or place any moving items like clock, water fountains, bell etc that might ignite the unkind energies.**
3. The **5-Yellow sickness** star is located in the North sector and **one should thus place six bronze coins or a metal plate or music box in the sector to fend off this bad health star.** Northern part of Asia, USA, Europe and Africa might face new diseases that

call for the world attention. Local authorities should take serious precautionary measures against skin and food related illnesses and face health problems related to drugs and poisonous issue with drug trafficking issues.

4. The Northeast area is associated with the **3-Green star** and is linked to 'oral' arguments. ***The Northeast sector of the house should not be disturbed and, ideally, a red or pink carpet should be placed here.*** If your office, office desk or your working area is located in this sector, you or your company might face a tendency for closure, or resignations or constant arguments with your superior. More to do with internal discrepancies or differences among colleagues. Tai Sui, the commanding star resides here and any renovation would ignite the unkind energies.
