Liu Fa-Part 3

**Kin Kwan Breed 6-offspring (see Diagram)**

- Kin 乾 and Kwan 坤 intercourse to breed 6 Guas.
- Kin 乾 leads 3 males of Chan 震 Ham 坎 Kan 艮
- Kwan 坤 leads 3 females of Shun 巽, Lei 離 and Dui 兌

The inverted of Kin and Kwan, Kan and Dui, Ham and Lei, Chan and Shun is dictated by the position of Kin and Kwan. The change in first Yao of Chan and Shun intercourses, middle Yao of Ham and Lei intercourses, Upper Yao of Kan and Dui intercourses. As a result three females and three males were produced. Take a look at Chan with more Yin Yaos, Shun with more Yang Yaos and etc. This is an example of balancing Yin and Yang. The 5 elements destructive and creative cycles have therefore formed this universe. The extreme of Yang (Kin) and Yin (Kwan) will not be in used as such.

Such end result is depicted as Small Gua or 3 Yaos Gua (with three lines). This serves as the formation of the basic Bagua diagram. The process of intercourse that breeds 6-offspring will lead to the utilization of the Xuan Kong Fa Jian time aspect methodology, by determining the 24 mountains Gua energy. In Shao Yung's *Kwan Wu Pian* (觀物篇), '6 Gua transformed to 8, Zhong Gua and thus transformed into 28, with 36 then transformed into 64. Yaos as set as 6 Guas, limit to 8, and starve at 36 and Zhong at 64'. This is different from the above diagram, which places emphasis on 64 Guas.

The above male and female intercourse will lead to 8 pure Guas, with that they have transformed into 18 Guas (the result of the 6 offspring change itself three times), together with 6 changes of Kin and Kwan Guas, that surprisingly match the 24 mountains.

The universe is such that is dynamic and the intercourse of Yin and Yang would take place continuously and the 64 Guas merely serve as the expression of such changes that take place. The changes in the weather (sky) will have impact on the earth such as produces and the soil textures, no violation of the nature of universe in normal course.

Earth Yin changes will result in Yang, Material Yang changes will result in Yin.
