

*with great power, comes great responsibility*

## I-Ching & The World of Metaphysics

### Liu Fa-Part 4

#### Bagua Transformation Diagram

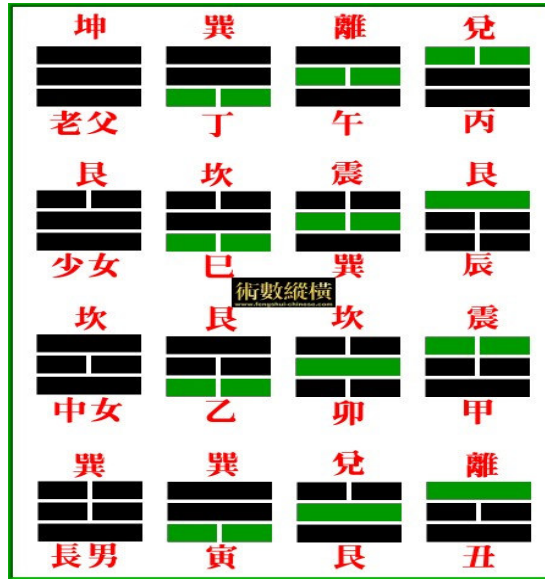

Both Kin and Kwan were old and retired from holding major position in this process. The eldest Son, Chan, and the eldest daughter, Shun, would replace them respectively. This ancient society norm is still practiced in today's world, where by the eldest son would stand by to replace or inherit their parent's role or businesses. "Kin and Kwan are still the Yi's main door and the universe's pioneer", is like the Eastern Han's Yu Fan Guas that Kin and Kwan breed 6-offsprings. To explain the context of Yaos and 12 News Guas, that has complicated the process and relationship. However the great Jin fang used the 6-offspring Guas to instill into the 72 Hou(weather), clearly differentiating the Yin and Yang that according to the weather or season.

This article focal point is the changes of Gua Yaos that lead to the findings of 24 mountain Gua energy. To do this we must adhere to certain rules. Kan and Dui's Upper Yao is the principal Yao, Kin, Kwan. Ham and Lei will use middle Yao as their principal Yaos, while Shun and Chan will use Lower Yao as principal Yao. The second rule is that changes in the Principal Yao will change all three Yaos. That is Yang Yao will change to Yin Yao and vice versa. The notion of 'Three Threads got you a boy and Three Threads got you a girl' came from this ancient Principle.

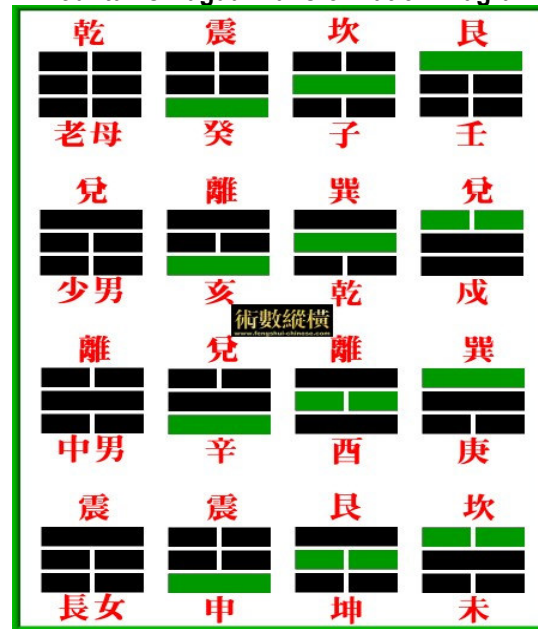

The Inner layer uses the Early Days Bagua order Kin/South, Kwan/North, Lei/East, Ham/West, whiel four corners are Dui/Southeast, Kan/Northwest, Chan/Northeast and Shun/Southwest. This will serve as the body for Yaos Changes., the middle ring is the 24-mountains, while the outer layer consists of Yaos that had transformed. The most outer layer is the inverted Guas, the essence is to clearly define the changes in systematic manner. Please refer the 24-moutains Bagua Diagram for changes that take place.
