Male and Female Intercourse with the 9-Stars Allotment Diagram

雌雄交媾生男女配九星圖

Looking at the diagram, the inner layer with Heaven Gua while the outer layer is Earth Gua, with the move of four spots we find the Parents Gua. Western Gua originated from the East while the Eastern Guas originated from the West, North and South parents Gua mutually exchanging and inverted their position accordingly. This is in line with the saying that Southern Gua in coming dragon should be from the North and vice-versa. The inverted Guas serve to produce different outcomes for reasons, the offspring, and mother, grand parents Guas are derived by using the same formula that apply from ancient text of *The Light Shed on Earth*. The 9-stars allotment is mainly based on the early days Bagua setting.

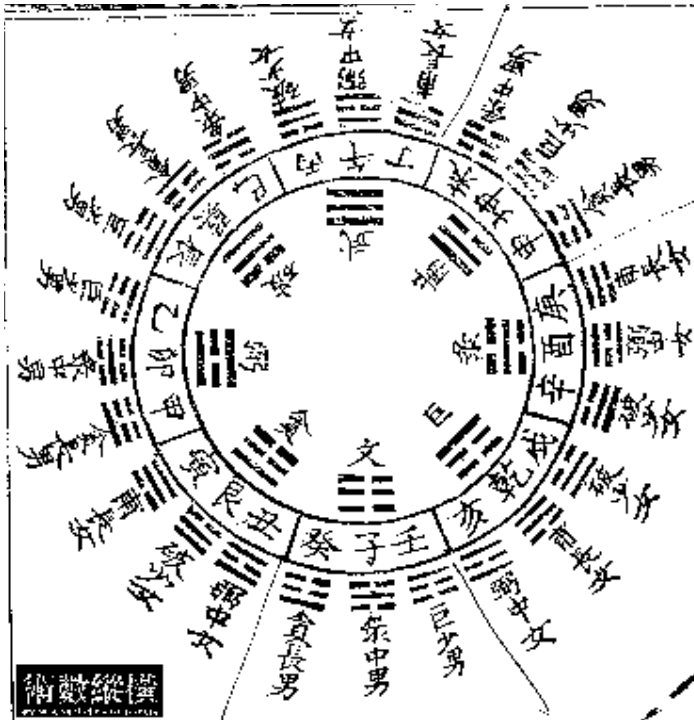

The interpretation of ancient text vary from school to school and master to master, as such it is believed that each will have its own unique and yet reasonable explanation. Nevertheless one must keep in mind in regards to the era that the text was written and the period the text was interpreted. I am Sure if some of us try to explain the logic by using today's knowledge, we would have different version.

Let us see the explanation of Xuan Kong Fa Jian on three general Guas. *Xuan King Fa Jian*, the inner layer of Heaven Gua is referring to early Days Bagua while the outer layer is the Earth Gua with the transformation of 24-mountains Gua that is the explanation of *Early days Bagua as body while the later days Bagua as application*.

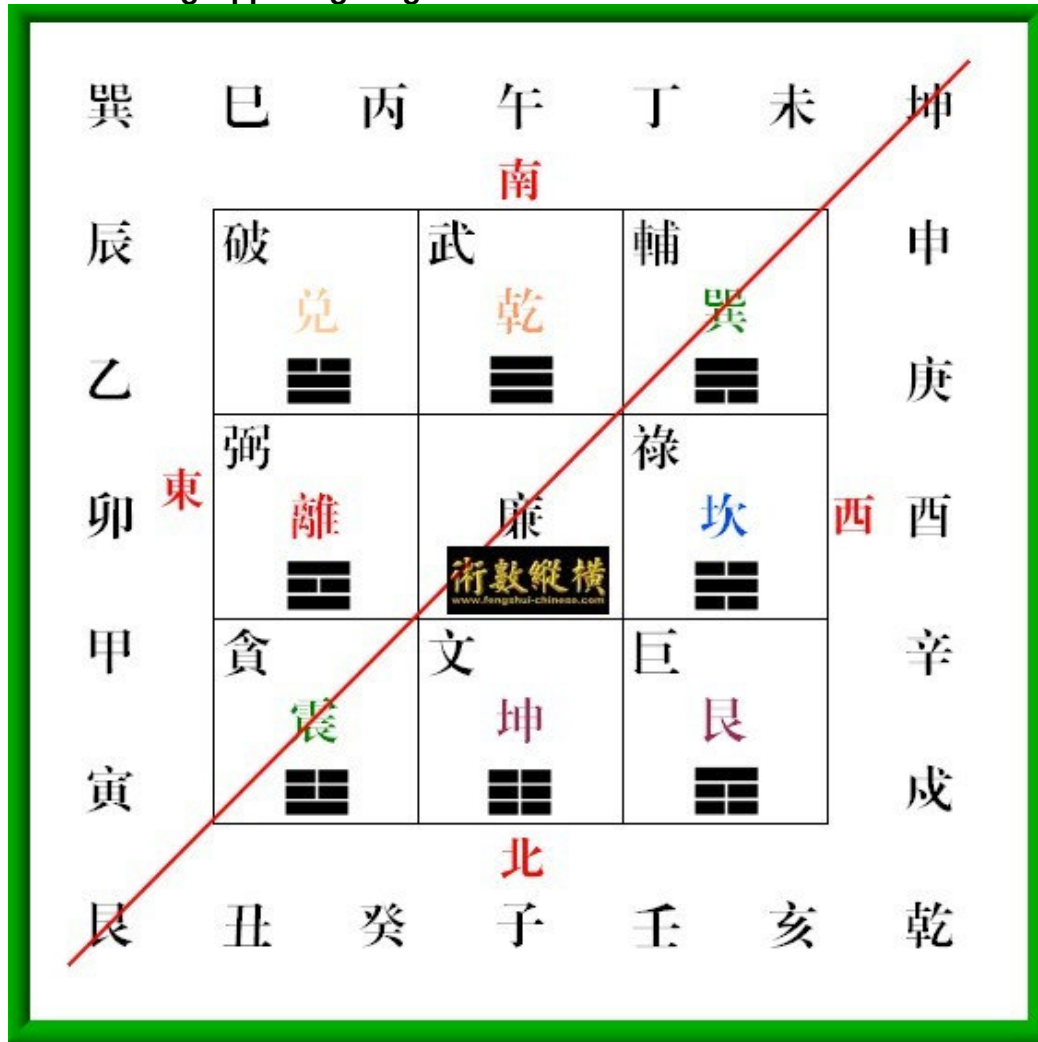

Western Gua originated from the East with Later Days Chan Gua, as mentioned 'Later Days direction enter the middle palace' as Early Days Kwan Gua as mother on the North to lead three male of Chan, Ham and Kan. Eastern Gua originated from the West with Later Days Dui Gua, with the Early Days Kin Kwan set on the South to lead three female of Shun, Lei and Dui. As quoted 'the parents is opposing each other on top and bottom, with the male and female in between. The Kin is opposing Kwan, Chan is opposing Shun, and Lei is opposing Ham, while Kan is opposing Dui. Ancient Scripture "Winter solstice as virtue while Summer solstice as punishment, Virtue of Chan emerged from Winter Solstice as first Yang surface, punishment of Dui from Summer solstice with the surface of single Yin. As quoted' from Ham to Shun is clockwise while Shunt to Ham is anticlockwise four positions to place parents, this is the Three General Guas.
