Liu Fa-Part 7-Six Dragons Diagram-六龍圖-

The essence of the diagram is to 'match' accordingly. Youngest Son to match Youngest Daughter, Middle Son to match Middle Daughter, Eldest Son to match Eldest Daughter. The focal point here is to find out from the transformed 24-mountain to 'match' the right Gua. This, as mentioned earlier, is to match Kan/Peng/San/Dog dragons with Kwan/Yam/Yuet/Dragon dragons. This is to adhere to the Married -Couple matching theory. As also narrated by the notion of 'Rat rail to be matched with Rat Gua'

The use of such technique should be in a flexible manner but should adhere to be time concept that when in the commanding period once should harness the commanding period energy or like wise.

Six Dragons Diagram
