Liu Fa-Part 9-Swapping Lei with Ham Diagram 坎填離圖

The above phrase has been around for more than 1,000 years and many versions of such interpretations have provoked disagreement or arguments. Even Yi Scholars and Dao Scholar have different views. One point that need to point out from such phrase without taking into consideration of the background of such text, is the logic behind the Kin Gua as the Golden Dragon, in the Early Days Bagua Yao transformation, every Gua that change to Kin Gua, notice the 'changes of the Yao' that will lead us to find the Golden Dragon Water mouth in later part. Such changes are 'Swapping Lei with Ham'. For instance Lei Gua inverted as Ham, in which 2 Yins Guas Changes of Yaos to become Yang Kin, and Ham inverted to be Lei with one Yin Gua changes of Yao as Yang Kin Gua.

"Swap the Ham (solid) to Lei (empty) and dictate the Golden Dragon by principle of Changing Gua of Three Yins inverted to Three Yang"
