

Dragon Searching Process 25-Hok Tou Lung Shan (鶴藪水塘,龍山)

Dragon Searching Process:

It is the intention to search for the right solution and the right answer and be it the right solution is the right meridian spot! The dragon trail is not easy to find at times tedious.

It is unwise to act like a real master when you are only half barrel full. Mind you ancient Master or scholar always do not write down their essence of techniques for two reasons, one, they often oral teach the essence to disciples and, they afraid that such techniques might be on the hand of the bad-hearted people. God knows the real essence, but that's always one way we can find out, that's to study the ancient tombs done by prominent masters. Such works cannot be camouflaged and have to be authentic. Their skills and their texts could have differences but only the works (tombs site) can be trusted. The core of the text is to narrow down the focus on the Xuan Kong techniques.

Location: Hok Tou Lung Shan,(鶴藪水塘,龍山)

Date: September 2010 年 Highland with water pond. The center of water gathering 此地高山水聚天心.

Hope you enjoy the dragon searching process!
