Dragon Searching Process -Hong Kong Real Dragons Trails (香港龍脈新論)

Together, we promote Chinese Metaphysics the Right Way

五術殊非小道,推廣正統五術,你我要責!

It is unwise to act like a real master when you are only half barrel full. Mind you ancient Master or scholar always do not write down their essence of techniques for two reasons, one, they often oral teach the essence to disciples and, they afraid that such techniques might be on the hand of the bad-hearted people. God knows the real essence, but that's always one way we can find out, that's to study the ancient tombs done by prominent masters. Such works cannot be camouflaged and have to be authentic. Their skills and their texts could have differences but only the works (tombs site) can be trusted. The core of the text is to narrow down the focus on the Xuan Kong techniques.

Organized by Fengshui-chinese.com (術數縱橫 <u>http://www.fengshui-</u> <u>chinese.com</u>)

Venue: Tai Mou Shan (大帽山), Date: October 2nd 2010

The description map about Hong Kong four hundred years ago were not as accurate let alone in fine details. Therefore ancient masters relied heavily on their own eyes and feet to make judgments on the meridian spots.
