My Analysis

First Observation:

Good mountain star but bad water stars meaning that this house will not bring in fortune but possible failure in business.

***The truth:** Two years after moving in, his business turned bad and have to declare bankrupt. One year later by accident gave birth to a son. Mr. Lee was running car workshops businesses on PRC China for almost ten years, with a sudden change in local government officers, his business was found to be unlicensed and summoned to closure.*

2nd Observation:

The Southeast sector with 596 combinations is prone to food poison or poisonous illness.

***The truth:** In the year 1995 his wife was found to have a poisonous tumor in the stomach and luckily was removed without further complication.*

3rd Observation:

His son's bedroom with the combination of 141 in the northeast sector is an excellent room for academic achievement and he placed the study desk in the central box of 417.

***The truth:** I inspected the house in 2000, with his son only 8 years old, Mr. Lee told me that since the age of 4 he can speak and write like a ten year old kid's standard. Now (2000) his son can speak three different languages and math level is equivalent to high school students.*

4th Observation:

The kitchen is located in the South sector with 955 combinations also contribute to the family bad health.

***The truth:** After moving into this house, Mr. Lee and his family's health deteriorated. Constant migrant, regular cough, cold and beside the above problems.*
