***Any big or dying trees nearby?***

Too big of a tree will create excessive Yang energies because anything that is excessive in any dimension is considered to attract 'unkind' energies that disrupt otherwise 'kind' energies. What should you do with big trees? You need to handle them with care so as not to offend your local authorities. Trimming it is the best solution. What if the tree is dying? Dying trees are believed to radiate 'unkind' energies that might slow down a person's life progress. If you have not already purchased such a house, I would advise you not to as it would affect a person's well-being. In case you have already resided there for some time, you should place a cup of water facing such a tree if you cannot get rid of it. The water element is said to drain off the unkind energies radiated by dying trees.

***Lamp post facing your main door?***

Nearby lamp posts or sharp objects directly facing your house are believed to bring in 'unkind energies' that might affect a person's health, thereby causing headaches, migraines and minor foot and hand related accidents. Solving such 'headaches' requires the basic 5-elements theory solutions.

***Is a construction site in the vicinity?***

Major health problems are caused by construction sites. Construction sites not only attract 'unkind energies' to the house, but the sound of drilling and demolitions, as well as dusty debris, are also bad for a person's health. Again, I would recommend the use of the 5-elements theory to counter the unkind energies.

## Relationship Feng Shui

### Want to start a new relationship?

If you are still alone and want to bring in more opposite sex friends and start dating then your bed or office desk should be facing the West sector. Additionally, place red or pink colored items there to strengthen the relationship energies.

### Want to get married?

Of course, you need to have dates or a steady boyfriend in order to get to the next stage, marriage! If you are eager to get married but find it hard to make progress, try this one: In the Northwest sector of your house, place a pair of Mickey and Minnie, or any pair of dolls (female and male), with red or pink colors. Of course, you can also place a photo of you and your boyfriend in a red or pink colored picture frame.

### Want to conceive or do family planning?

In order to tap into such energies, you should place green and red colored items in the Northwest sector to strengthen the 9-star that governs this category. If you are not planning to have a newborn, you should avoid placing such an item. Instead, you should choose brown or yellow colored items to drain off such energies.

### Want to foster a better relationship at work?

In your workplace, you can place a small water plant or a cup of clean water in the West sector to foster a better relationship with colleagues. Doing so will also decrease the chances of misunderstanding and office politics.
