More on Flying Stars

The Flying Star theory is based on the Ba Gua foundations and Lok Shu's logic. It is a predictive tool to harness the good energies and evading the bad ones. Time aspect is crucial and based on a 180 years timetable with every twenty year as one cycle. Based on Yin or Yang nature of such stars, it will then rotate forward or reverse in certain pattern. Certain commanding stars will dictate the current energies level.

The main direction of a house setting with good mountain and water stars is the most auspicious house. This orientation is good for health and wealth. However, if mismatches were found then wealth and health will be affected in negative ways.
