Auspicious Locations with Red Color (see below above)

1. The Northeast sector is conducive for achieving academic excellence with **4-Green star**. Therefore, if you want to improve your academic qualities, this sector should be used for your bedroom or study room. ***To further strengthen such energy, you should place four lucky bamboo trees, four small plants or four wood calligraphy pens in this sector.***
2. The Southeast sector with a **9-Purple star** is conducive for events related to 'happiness' and 'celebration'. Marriage, pregnancy, promotion and career advancement are in this category. This will be ideal if such a star falls in your bedroom or living room. ***To strengthen this energy, you can place a plant, nine red roses or red colored carpet this Southeast sector.***
3. The Central sector with **1-White star** is related to harnessing relationships that can be of help in increasing wealth if you are not a salaried staff person. In other words, if you are doing business, or work as an agent or broker, you need to improve your relationships and thus your opportunities for pursuing leads and closing deals. ***Place either a cup of clean water or a music box in this sector.***
4. **The 6-White star**, located in the North sector, is ideal for skilled workers or technicians who want job stability. ***Place eight small white stones*** in this sector to strengthen such energies. Nevertheless, such energies will be diverted since frequent travel and constant changes in jobs requirement are required.

Inauspicious Locations with Black Color (see table above)

1. The Northwest sector with a **2-Black star** is prone to illness. Unless you do something to counter such bad energies, you will constantly be using your sick leave for sure! ***In this sector, you can place a metal-related item such as a music box or a metal statue.*** Do not panic though. This 2-Black star is only related to minor illnesses such as sinusitis, coughs and headaches! Since 2-Black star also represents women, especially married women and be cautions about health issues that might lead you to long term problems that cannot be solved immediately. Stomach indigestive related problems as well as food poisoning are rampant.
2. The Southwest sector with a **7-Red star** is often associated with robbery and small theft events. ***Place a cup of clean water to drain such bad energies at this sector in your home.*** **North of Asia, USA, Europe and Africa** will probably experience major car accidents or large earthquakes.

3. The **5-Yellow sickness** star is located in the South sector and ***one should thus place six bronze coins or a metal plate or music box in the sector to fend off this bad health star.*** Northeast part of Asia, USA, Europe and Africa might face new diseases that call for the world attention. Local authorities should take serious precautionary measures against skin and food related illnesses. It face health problems related to drugs and poisonous issue with drug trafficking issues. **However, since san-sak bad star is located here, this area should not be disturbed with renovations or place any moving items like clock, water fountains, bell etc that might ignite the unkind energies.**

4. The West area is associated with the **3-Green star** and is linked to 'oral' arguments. ***The Northwest sector of the house should not be disturbed and, ideally, a red or pink carpet should be placed here.*** If your office, office desk or your working area is located in this sector, you or your company might face a tendency for closure, or resignations or constant arguments with your superior. More to do with internal discrepancies or differences among colleagues.
